Are you guys available around 10 ET for a 5 minute call about resampling? With it looking like HQ will approve resampling for full set of metals at the 15 homes there are 2 follow-up items to discuss (beyond further edits to messaging so rollout can occur). Let me know. Thanks, den.

**Subject:** Meeting on monday at Ft. Meade

Den/Jerry,

I wanted to give you a heads up that Stephen Watkins from ORD has asked us for a quick briefing on how we are handling data. We were already working on travelling to Ft. Meade on 5/7 anyway. So when I suggested that location and date, he was willing to meet us there. OK?

The rest of the meeting will be for us to discuss current issues and plans with the lab and also lessons learned.

Rich

**Subject:** NCP Requirement for Dimock-Community Involvement Plan

We have an NCP requirement to put together a CIP for removal actions extending beyond 120 days so I began to wonder if that applied to Dimock. I spoke to Humane and it does. The clock started from the date that the Action Memo was signed (January 19th). That means we have until May 19th to meet the requirement.

The good news is that we can use a lot of the same information that we gathered during the home well surveys and in subsequent meetings/calls with the residents, so I don't anticipate needing to conduct additional community interviews. Also, the CIP does not have to be an elaborate document so I feel confident that we can meet the deadline. It just needs to outline the general community concerns and our plan for communicating our actions to the residents.

Please let me know if you have questions and I'm available to discuss any concerns at your convenience. Thanks.

Hi Rich,  
Below is the start of a response to [Ex. 6 - Personal Privacy] email.  
There are six (6) questions. I used the final Q&A statement for most of them.  
Who would you like me to ask to help answer question #1 and #5?  
Thanks.

1) Where is the sodium coming from?

**Ex. 5 - Deliberative**

2) Has the plume of contamination been mapped?

**Ex. 5 - Deliberative**

3) If your cut off is 20,000 how can 40,000 and over be acceptable?

**Ex. 5 - Deliberative**

4) What is your explanation for the alarming numbers concerning the methane?

**Ex. 5 - Deliberative**

5) Do you really believe the water was like this here B.C.? Before Cabot??

# Ex. 5 - Deliberative

6) Are you dumping these results on the residents and going away?

Rich, thanks for the note. I'm confident you guys can come up with an appropriate approach for documenting the QA processes used and results achieved without me so I'll pass on participating in today's call. Your right my principal interest is timing as I believe we need to find a way to do this faster than the preliminary timeframe offered when we talked with ORC and Ron about FOIAs last week. So let's plan on you, Kelley, Jerry and I talking timing next week after you have a better fix from today's call on steps and actions required. Thanks again, den.

**Subject:** Fw: 3:30 pm call to discuss project level review process

Jerry/Den,

Based upon my urging after this morning's 8:30am call, where we discuss the preparation of this report, Kelley has set up this call. I know you wanted to have a call to discuss this report also (probably more of the timing, etc.). I think Kelley's call will not be in conflict with what you wanted set up. In fact, I think after this call, Kelley and I would be able to speak more intelligently (at least Kelley will) on our approach for this report. I know this report is now critical to the release of the "raw" data as requested in the FOIA. You are more than welcome to participate in this call if you wish, but I don't think that's necessary. Of course any advanced thoughts are welcome.

Rich

Rich or Kelley, did either of you hear anything from the Ft Meade folks on the status of analytical and data validation for the 4 homes we resampled?? Ron would like me to finalize today the timeline for possibly halting water so he can get it to Shawn. Shawn will be in DC for the next 3 days so he's trying to give him the timeline before he leaves. Thanks, den.

Subject: Status of R3

---

Hi Robin - sorry - but I am officially being a pain. Also tried to contact Cindy - not sure if she is in. I was asked to get an update from Ft Meade regarding the status of analytical and data validation for the 4 homes we re-sampled (HW-4,6,7 and 8a). The samples are being analyzed for metals only. Apparently we were hoping for lab-validated final results by Thurs 6/6 - would you be able to check on the status? We were asked to update RA this afternoon. THANKS!!!

Trish...I'm so sorry. I did bring this up last week and Ron is fine with you responding to them but he wants to you to send the draft response around for comment. I would suggest re-sending your initial draft back around to Dennis, et al and ask for their input because they've all forgotten about it.

---

Ex. 6 - Personal Privacy email dated May 8, 2012 needs a response.

I've provided draft responses to her questions (see email chain below).

If this is unacceptable we can respond with a blanket statement.

The one Rich Fetzer suggested is:

**Ex. 5 - Deliberative**

**Ex. 5 - Deliberative**

**Ex. 5 - Deliberative**

I would like to get back to her soon.

Thank you.

We have pre-approved information, for when we are asked specific questions about the removal activities (see Q&A statement).  
Shouldn't I use that language here? Isn't that the point of having it?

Trish

Hi Rich,  
Below is the start of a response to **Ex. 6 - Personal Privacy** email.  
There are six (6) questions. I used the final Q&A statement for most of them.  
Who would you like me to ask to help answer question #1 and #5?  
Thanks.

1) Where is the sodium coming from?

**Ex. 5 - Deliberative**

2) Has the plume of contamination been mapped?

**Ex. 5 - Deliberative**

3) If your cut off is 20,000 how can 40,000 and over be acceptable?

**Ex. 5 - Deliberative**

4) What is your explanation for the alarming numbers concerning the methane?

**Ex. 5 - Deliberative**

**Ex. 5 - Deliberative**

5) Do you really believe the water was like this here B.C.? Before Cabot??

**Ex. 5 - Deliberative**

6) Are you dumping these results on the residents and going away?

**Ex. 5 - Deliberative**
